PROFESSIONAL SUMMARY

Motivated and detail-oriented Bachelor of Computer Applications student graduating in May 2026, seeking Frontend Developer, Full Stack Developer, and Software Engineering Internship opportunities. Strong foundation in web development, programming, and database management, with hands-on experience building responsive applications using HTML, CSS, JavaScript, and React. Passionate about creating intuitive user experiences, writing clean code, and continuously expanding technical expertise through practical project development.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, GSAP

Programming Language: C, C++, Java, Python, PHP

Backend: Core PHP

Databases: MySQL, Oracle Database

Currently Learning: Advanced React, Modern JavaScript, Full Stack Development

Professional Experience

Web Developer Intern — **IT HUB software solutions** *December 2025 – February 2026*
Bhavnagar, Gujarat

- Built and maintained backend logic in PHP with MySQL database integration.
- Collaborated with team of 3 developers — learned production debugging.
- Gained frontend-backend integration experience, which strengthened my transition into frontend design.

PROJECTS

Responsive Personal Portfolio Website — HTML, CSS, JavaScript

- Designed and developed a fully responsive frontend portfolio website using HTML, CSS, and JavaScript with a focus on modern UI/UX, accessibility, and cross-device compatibility.
- Implemented responsive layouts, animated navigation, interactive sections, and smooth user interactions using Flexbox, CSS Grid, media queries, and reusable styling architecture.
- Enhanced the user experience through dynamic animations, mobile navigation functionality, and WhatsApp integration while following semantic HTML and maintainable frontend development practices.

Live Demo: [GitHub](#)

University Website (AI-Assisted Development) — HTML, CSS, JavaScript

- Designed and developed a modern, responsive university website featuring academic information, admissions, and campus highlights.
- Leveraged AI-assisted workflows to accelerate prototyping, frontend implementation, and UI refinement.

- Optimized responsive layouts, intuitive navigation, and cross-browser compatibility across multiple devices.

Live Demo: [GitHub](#)

Love Longevity Coffee – Coffee Shop Interface) — HTML, CSS, JavaScript

- Currently Under The Work
- A modern, responsive coffee shop web UI built with HTML, CSS, and JavaScript
- Features include a dynamic menu section, hover effects, pricing cards, and a working filter system (in progress)
- Currently implementing cart UI and local storage for order simulation.
